Experts in joint care

At Nutrabiotics we have developed a high quality, pharmaceutical grade joint support product made from natural ingredients to aid professionals and their clients.

“**Excellent products for Chiro practices**
...Nutrabiotics have helped people of all ages at our clinic, from young sports people to older ladies and gentlemen. People with various arthritic joints, from the wrist all the way down to ankles, have noticed a dramatic improvement since taking the products ”

Adam Carlisle, Doctor of Chiropractic.
Coastal Chiropractic Clinic.

Backed by independent trial data

With an extensive flow of independent trial data, our unique patented boswellia extract with turmeric curcumin complex combines to provide the perfect ingredients to complement the work of health professionals who need to be able to recommend joint and mobility products with total confidence.

The recognised pairing of glucosamine and chondroitin provide the perfect base ingredients as they help maintain the structural component of cartilage. Along with glucosamine, chondroitin sulphate has become widely used for the treatment of osteoarthritis and other joint issues.

Formulated with our high purity boswellia and turmeric. These act with the body's own natural anti-inflammatory processes to provide fast acting joint support, which can be used long-term without any side effects.

“**I felt the difference within a week**

...As I recommend a lot of joint products for customers, I thought I would try it myself due to having chronic arthritis in my neck and shoulders. This caused constant pain, headaches and stiffness in my neck. After taking their boswellia product, I felt the difference within a week. The headaches went, and the mobility in my neck improved hugely. Since then I have continued to take this product and the results are astounding. ”

Moorey's Health Store

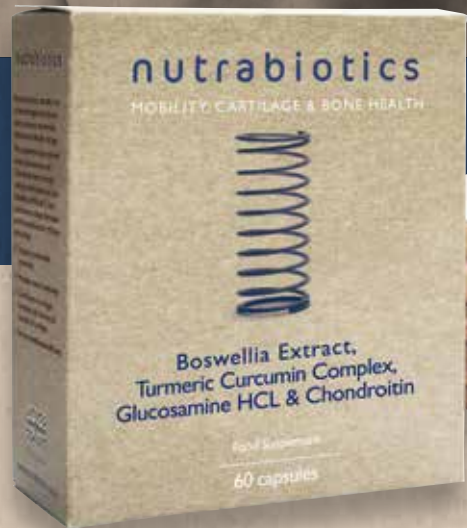

Key ingredients for joint health

Boswellia has been used for thousands of years as botanical medicine because of its powerful and fast acting effects in helping reduce pain and improving mobility in people with joint conditions such as osteoarthritis. Research shows that it might decrease joint pain by 32% to 65%.

Glucosamine HCL is found naturally in the body. It plays an important role in making glycosaminoglycans and glycoproteins, that are essential building blocks of many parts of joints, including ligaments, tendons, cartilage and synovial fluid. Animal studies have found that taking glucosamine can delay the breakdown of cartilage as well as rebuild it.

Turmeric Curcumin complex the active ingredient within Turmeric, our unique Curcumin complex is a highly bioavailable antioxidant defender, quenching free radicals whilst supporting the body's own natural anti-inflammatory processes.

Chondroitin Sulphate is an important structural component of cartilage and provides much of its resistance to compression. Along with glucosamine, chondroitin sulphate has become a widely used supplement for treatment of osteoarthritis and other joint issues.

Fast acting support for mobility, cartilage & bone health

Boswellia extract, turmeric curcumin complex, glucosamine HCL & chondroitin

60 x 1000mg capsules per box

Each sprinkle capsule contains:	
505mg	Glucosamine Hydrochloride (99% Pure)

- ✓ Includes our unique patented boswellia extract

“ **My knee joints have shown a marked improvement.** I have been using Nutrabiotics Boswellia & Turmeric for around 6 months now. My knee joints have shown a marked improvement. The stiffness that I used to experience when walking my dog every morning has disappeared. This is a brilliant product that I have no hesitation in recommending. Thank you Nutrabiotics. ”

Susan Doherty

“ **Many repeat customers that swear by the product..** Very big fan of Nutrabiotics Boswellia down here in Richmond, we have many repeat customers that swear by the product. I even recommended it to my arthritic Dad. He loves it. ”

Jenny Knight, Whole foods Market Richmond

“ **The pain in my knee completely disappeared.**
I was suffering from knee pain that made it difficult to work as I am always on my feet. After taking the Nutrabiobiotics Boswellia extract the pain in my knee completely disappeared. I feel this is an amazing product and I would happily recommend it to anyone. I want to say THANK YOU NUTRABIOTICS My best wishes! ”

Jana Sulakova, Health & Beauty
Whole Foods Market

“ **I cannot recommend this product highly enough**
...being a professional athlete for 6 years, playing a very physically demanding sport, it can take its toll on your body. I cannot recommend this product highly enough, whether you want to use it as a injury preventive or if you suffer from joint problems this supplement is for you! Many thanks to Nutrabiobiotics for introducing me to this amazing product. ”
